

FRIDAY MORNING, JULY 29, 1904.

VON PLEHWE'S FATE CONTAINED IN BOMB.

The "Power Behind the Throne" of Russia a Mangled Corpse.

Young Finn Named Legio Blew up the Minister of the Interior While the Latter Was Going to the Czar. More Than a Score of Persons Killed and Wounded. Minister Muraviev's Carriage is Stoned.

(BY THE ASSOCIATED PRESS—P.M.) ST. PETERSBURG, July 29.—[By Atlantic Cable.] Viatshe shaf Constantinovitch von Plehwe, Minister of the Interior of Russia, was assassinated at 9:50 o'clock this morning with a bomb thrown at his carriage while he was driving to the Baltic station to take a train for the palace at Peterhof, where he was to make his weekly report to the Czar.

The assassination is believed to be the outcome of a wide-spread plot, the existence of which has been suspected for several days. Numerous arrests have already been made, including that of the assassin, a young man who is believed to be a Finn of the name of Legio, and who is now in a hospital, perhaps fatally injured by the explosion of his own bomb. An accomplice of Legio, also apparently a Finn, but whose name is unknown, has been arrested. He had in his possession a bomb which he tried to throw, but he was overpowered by the police just in time to prevent great loss of life.

The assassin wore a brown overcoat and a railroad officer's cap. He stood on the sidewalk just as Minister von Plehwe's carriage was about to cross the canal bridge near the station. The Minister was escorted by a number of detectives on bicycles, and one of them jostled the assassin, who then rushed into the road and threw the bomb after the carriage.

MANY VICTIMS. The missile struck the hind wheel and exploded with fearful force, killing or wounding more than a score of persons. Minister von Plehwe and his coachman were killed outright and an officer of the guard was fatally injured.

One of the detectives captured the assassin as he attempted to escape, though wounded by splinters in the face, arm and abdomen. He made no attempt at resistance, however, when seized by the detective, and confessed his crime, but refused to give his name.

The police immediately after the explosion arrested a suspicious individual, who took refuge in a hotel near the scene of the tragedy. He carried a bomb similar to that thrown by Legio. As soon as the police saw the bomb they scattered, but an employee of the hotel rushed up behind the accomplice and pinned his arms.

TERRIFIC EXPLOSION. The explosive is believed to have been composed of pyroxilin, as it gave off little smoke. The force of the explosion was so terrific that it not only broke nearly every window within a radius of half a mile, but reduced heavy paving stones to powder, heaved up the pavement and flung a heavy piece of ironwork of the carriage across the canal, severing a thick barge mast which fell, stunning the captain of the barge. Everybody in the street was knocked down and bruised.

When the officers of the law, headed by the Minister of Justice Muraviev, had terminated the necessary formalities by drawing up a written report of the crime, the mangled body of the Minister of the Interior was conveyed to a humble chapel adjoining the railway station, the windows of which escaped destruction. Priests and people, with characteristic Russian piety, at once joined in a solemn requiem. The square in front of the station was filled with a reverent crowd of peasants and laborers, and the busy hum of traffic was silenced. A priest proclaimed the memory of the departed Minister, while all those in the congregation dropped to their knees.

A no less impressive service was conducted at the Minister's stately home this evening, but only intimate friends were invited by Von Plehwe's assistant, Mr. Durnovo, who is temporarily in charge of the Ministry of the Interior. The magnificent staircase and the reception rooms were draped in black. The body of the Minister was covered with a white shroud, which concealed the ghastly mutilations. It reposed in a black and silver coffin in a corner of the vast hall, surrounded by luxuriant palms. Gendarmes and non-commissioned officers stood sentinels at the head of the coffin, while at its foot were two high officers of the ministry.

The hall and the adjoining rooms, which are decorated in the Byzantine style, somewhat resembling a church, were crowded with distinguished personages, including High Admiral Grand Duke Alexis, Admiral Avellan, Chief of the Admiralty; Prince Khilkoff, Minister of Railroads; Minister von Plehwe's associates, M. Wahl, M. Durnovo and M. Sevastianoff, and the members of the diplomatic corps in full force, including Spencer Eddy, American Charge d'Affaires; Sir Charles Hardinge, British Ambassador, and M. Bompard, French Ambassador.

A special edition of the Official Messenger, which was distributed late this afternoon, contained only a brief announcement of the death of Minister von Plehwe and the intimation that a requiem would be conducted.

Minister of Justice Muraviev went to the Peterhof Palace this afternoon to report the assassination of Minister von Plehwe to the Emperor. His Majesty did not leave the palace during the day, although he had arranged to go to Oranienbaum, 19 miles from St. Petersburg, to attend the consecration of the new harbor. The Czarina has not been informed of the tragedy, in view of

the hourly expectation of her accouchement. TRACING THE PLOT. (BY THE ASSOCIATED PRESS—A.M.) ST. PETERSBURG, July 28.—The first hurried investigation of the police seems to connect the crime with the plot which was frustrated by the explosion at the Hotel Du Nord, April 13, in which Kazanoff one of the conspirators was killed by the accidental explosion of an infernal machine, which, at the time, it was said, was intended for Von Plehwe. On that occasion a companion of the conspirator who was killed escaped. Owing to the frightful force of the explosion which completely wrecked two rooms, blowing the body of Kazanoff almost to atoms, severing his head, the officials of the police department believe it is possible that the explosive was identical with that used in today's tragedy, which was caused by a bomb or infernal machine of similar power with that of the former plot and that the perpetrator was the man who escaped at that time. It is reported that six men are implicated, and that five of them fed into a little hotel adjoining the scene of the assassination, the only one who was wounded having been captured. The hotel was surrounded by the police and all its inmates were arrested. PRISONER TAKES POISON. The wounded man was taken to Alexander Hospital, so dazed as to be unable to speak. His condition was accounted for by the fact that he took poison immediately after throwing the bomb. The Minister's carriage was being followed by secret service men on bicycles, but not one of them was injured. HEAD TORN OFF. According to a later account, Von Plehwe's head was torn off, the lower portion was completely shattered, but the upper part was untouched. A heap of debris from the carriage, a portion of the coachman's uniform, and a pitiable relic of the tragedy, were still lying in Zambalskaya street, where the crime was committed, when the correspondent of the Associated Press again returned to the spot this afternoon. For a block on either side of the street police guards were stationed and no one was allowed to approach. The news was broken to the minister's wife at Kyivsk on the Volga, while on her way to their country estate with their son, who is 37 years old. A daughter is married to M. Voutch, an official attached to the Council of Ministers, who was the sole relative of Von Plehwe able to attend the first requiem mass for the repose of his soul. HIS UNLUCKY DAY. Von Plehwe saw his son and wife off last night, and then drove to the residence of Gen. Bogdanovitch, an old friend and associate, with whom he remained until a late hour. The minister appeared to be preoccupied, and some of the guests asked him if he had received any more threatening letters and remonstrated with him for going about unprotected. Curiously, M. von Plehwe replied: "I am safe enough every day in the week, except on Thursday. No one knows of my movements beforehand except on that day, when everybody knows I go to present my weekly report to the Emperor."

The outrage is connected by the police with an explosion at Kharoff three days ago. It is supposed the bombs were manufactured there and the crime is believed to be the outcome of an international anarchist movement with which Gerschunin, the Russian revolutionary agitator who was arrested at Kieff in June, 1903, was connected. Gerschunin, it is asserted, was the organizer of the murder of M. Bogoloff, formerly Russian Minister of Public Instruction, and of M. Sipiaguine, who was Minister of the Interior before M. von Plehwe. THE DEAD MINISTER. Von Plehwe was appointed Minister of the Interior April 18, 1902, to succeed M. Sipiaguine, who was assassinated April 16, 1902, by a student named Balmashoff. He had formerly been director of the Department of Police, which position he practically assumed of his own accord, when in charge of the Department of Political Prosecutions, owing to the incompetence of the official in charge of the police when Emperor Alexander II was killed, March 13, 1881. M. von Plehwe conducted the prosecution of the regicides, and afterward reorganized the police. From that time on the power of M. Plehwe increased, until it became second only to that of the Emperor. Several plots to assassinate the Minister, however, have, according to reports, been discovered during the last two years, which period has been marked by strong political rivalry between the Interior Minister and the former Minister of Finance, M. Witte, now president of the Committee of Ministers. HE WAS A "PUSHER." M. Plehwe is not a scholar, but from his youth he had been brought into contact with official circles, and he slowly, but surely, pushed himself ahead. Before the Emperor called M. Plehwe to take the portfolio of Minister of the Interior, he had already spent about forty years in official work, and at the time of his death he was about sixty-six years of age. The educated youths of Russia are said to have been bitterly opposed to

nations, but special stress which both he and Cannon laid upon the tariff may indicate an intention to select this as the chief issue in the campaign.

HE MEASURES UP.
Evening Mail (Rep.)—That President Roosevelt has materially strengthened his own and his party's position by the lines laid down in his speech of acceptance, everyone who reads that admirable document with candor and properly critical eye will admit. It is no surprise to Republicans to see their candidate measuring up to an opportunity and acquitting himself so as to give strength to their cause, as he receives strength from it. Although their opponents profess to be surprised, and to see evidence of self-restraint and self-suppression in the man, it is a fair guess that they, too, are not surprised.

THE TIMES APPROVES.
Times (Dem.)—What Roosevelt has to say about our policy in the Philippines is eminently candid and true. It would be folly for us at the present moment to give political independence to these islands, with resulting and immediate loss of their civil and personal liberty. It would be sinful to withdraw our government and protection. We are doing in wisdom and honor the best we can do for the Philippines. We join also in Roosevelt's congratulations to the country upon our foreign relations.

IS NOT A "TOOL."
Baltimore Sun (Dem.)—There is solid ground for the belief that if Roosevelt is fortunate enough to win a majority of electoral votes in the contest this year, he will be guided solely by his own judgment in discharging the duties and exercising the powers of the Chief Magistracy.

WHOLESONOME INFORMATION.
Baltimore American (Rep.)—The speech is not too long for easy reading. It is doubtful if there will be a clearer or more interesting presentation of the political situation during the campaign. Every Republican who hopes to influence others should read it carefully, and Democrats will be able to extract from it some wholesome information.

DEMOCRATIC PRAISE.
Boston Globe (Dem.)—The address of President Roosevelt to the committee appointed to notify him of his nomination is an able and shrewdly-phrased political document. In spite of many inconsistencies, the address is an admirable one from the stalwart Republican standpoint.

FORAKER'S FRIENDLY WORDS FOR BARD.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, July 28.—[Exclusive Dispatch.] It has been said of Hon. Joseph Benson Foraker, senior United States Senator from Ohio, that he has the ears of so many political battles upon him that he appears to have had political smallpox. From the time he enlisted in the Federal army in 1862 he has been in real or political war every minute. At the close of the great Civil War, through which he served with distinction, he was so young that he had to go off and get some school education and when that was finished he tackled law and politics in Ohio.

Foraker has been judge of the Superior Court of Ohio and Governor of the State several terms, and every time he got defeated there was one of those fierce Ohio political battles. He presented the name of William McKinley to the Republican National convention in 1896, and in that same year was himself first elected to the United States Senate.

As a member of the Senate, he ranks high among the other Senators, and here is what he has written for publication in The Times about Senator Thomas R. Bard of California:

"I know nothing about local controversies in California, or about the merits of the various candidates for United States Senator, but I do know Senator Bard, and have known him well ever since he came to the Senate. It is no exaggeration to say that he enjoys the confidence, respect and good-will in an unusual degree of his colleagues—Democrats and Repub-

NIHILISTS RESUME A REIGN OF TERROR.

[BY DIRECT WIRE TO THE TIMES.]

LONDON, July 28.—[Exclusive Dispatch.] The St. Petersburg correspondent of the Express says that the assassination of Von Plehwe has created a panic in high official circles. The tragedy completely overshadows the disastrous events of the war. It is not merely the individual crime which appeals, but the knowledge of what it forebodes. The police possess clues which lead to the conclusion that Von Plehwe's murder was the result of a carefully-prepared plot. The authorities are convinced that the assassination is a link in a long chain of similar crimes. It is fully realized that a new Nihilists' reign of terror has been inaugurated.

The revolutionists have drawn up a long list of high personages who have been condemned to death by the revolutionary committee as opportunities for their assassination occur. The czar's name figures first on the list, which also contains the names of M. Pobedonostev, Procurator-General of the Holy Synod; Prince Ivan Obolensky, the newly appointed Governor General of Finland; and that of M. Benobrasov, the czar's favorite, who is accused of causing the war with Japan.

STONED MURAVIEFF'S CARRIAGE.

[BY THE ASSOCIATED PRESS-P.M.]

ST. PETERSBURG, July 28.—As Minister of Justice Muravieff was driving to the Peterhof Palace this afternoon to report to Emperor Nicholas the assassination of Minister of the Interior Von Plehwe, stones were thrown at him and his carriage windows were broken. The identity of the Minister's assailants have not yet been discovered.

BENSON DISCHARGE.

His Indictment Does Not Set Forth Facts Tending to Show Conspiracy, Says LaCombe.

NEW YORK, July 28.—John A. Benson of California, who was under indictment at Washington on charge of conspiracy to defraud the United States, by the acquisition of government lands known as forest reserve lands in Oregon and California by fictitious affidavits and fictitious persons, was discharged in the United States Circuit Court today by Judge LaCombe who, in his decision, said: "Upon the broadest construction which can be given to the indictment it does not set forth facts tending to show a conspiracy to commit any offense against or to defraud the United States, and the petitioner should therefore be discharged."

CANAL ZONE DISBURSEMENTS.

COMPTROLLER OF THE TREASURY TRACEWELL'S OPINION.

While General Spirit and Purpose of Constitution is Applicable to Isthmian Domain, Yet that Domain is Not Part of the United States Proper.

[BY THE ASSOCIATED PRESS-P.M.]

WASHINGTON, July 28.—Comptroller of the Treasury Tracewell, in an opinion today defining the authority of the Panama Canal Commission regarding disbursements and the relation of the canal zone to the United States holds that while the "general spirit and purpose" of the Constitution is applicable to the zone, that domain is not a part of the United States within the "full meaning of the Constitution and laws of the country."

He holds that Congress, by express legislation should have prescribed the form of government of the zone, the will and sound discretion of the President and his commission will control, subject only to the general spirit and purpose of the Constitution, and that the revenues of the zone shall be handled in accordance with such rules as he may authorize.

He holds it unnecessary to decide whether those revenues are in a general sense money of the United States, because they are not such money as the United States as are required to be accounted for to the Treasury Department.

The Comptroller also holds that the commission would have no authority to adopt a system of allotting pay to employees on the isthmus, similar to that in use in the navy.

MRS. HEARST LOSES.

Decision in Famous Mine Suit Against Putnam Company at All Affirmed in Favor of Defendants.

[BY DIRECT WIRE TO THE TIMES.]
SALT LAKE (Utah) July 28.—[Exclusive Dispatch.] In the famous mine suit brought by Phoebe A. Hearst and James B. Haggin against the Putnam Mining Company, the Quincy Mining Company and others, in which more than a million dollars was involved, the Supreme Court today affirmed the decision of the lower court in favor of the defendants. The plaintiffs sought to recover a portion of the sale price of the famous Quincy mine and other claims at Park City, alleging they had been defrauded through transactions leading to the final transfer of property to the Daily West Mining Company.

The defendant, the Putnam Mining Company, capitalized at \$1,000,000, divided into stock of par value of \$10 per share owned twelve mining claims in Summit county. The plaintiffs were owners of 325 shares of stock in the company. One of the defendants, Ferry, was vice-president and director of the company. The suit was brought to recover a portion of the sale price of the famous Quincy mine and other claims at Park City, alleging they had been defrauded through transactions leading to the final transfer of property to the Daily West Mining Company.

The bond and lease was afterward extended to October 16, 1906. Before the extension the company financially embarrassed and assigned a mortgage interest in his lease and bond. Since that transaction, the Quincy company has distributed \$1,200,000 in dividends and had \$200,000 more in the treasury. The property was subsequently conveyed to the Quincy West Mining Company for \$300,000, the price of the lease.

ROSEBUD DRAWING.

Nebraska Veteran of the Spanish-American War First to Get Choice of Homestead.

[BY THE ASSOCIATED PRESS-P.M.]

CHAMBERLAIN (S. D.) July 28.—William McCormick of Lancaster county, Neb., a veteran of the Spanish War, was the first to draw a choice of a homestead in the Rosebud reservation. Of more than 100,000 names placed in envelopes and jumbled in a barrel arranged on an axis like a churn, a government clerk drew McCormick's name first. Then 999 names were drawn and recorded. All these persons, if they wish, may take a claim in the reservation.

Tomorrow more names will be drawn, and the drawing will be continued until all envelopes have been taken from the barrel. The first 100 or 200 will get all the claims. Unless some of these refuse to file on their claims the remainder of 100,000 odd persons will not be eligible.

Fewer than 1000 persons watched today's drawing. "Lucky" McCormick, one of the eight boys to assist, drew the first envelope. Commissioner Richards tore open the envelope and McCormick's name was the winner of the first claim. He drew away, the drawing continued rapidly. After the first 100 names had been drawn and announced the remainder were displayed in batches on a bulletin board.

McCormick, who drew the first choice, is 27 years old. He served in the Second Nebraska Volunteers.

"MRS. FAIR" ILL.

Alleged Widow of California Senator in St. Louis Hospital, Suffering from Nervous Trouble.

[BY DIRECT WIRE TO THE TIMES.]

ST. LOUIS, July 28.—[Exclusive Dispatch.] Mrs. Craven, better known as "Mrs. Fair" of California, is at Good Samaritan hospital, 1001 North street and Jefferson avenue, suffering from nervous complaint, the result of a street-car accident. She received serious injuries to her right hip in a collision last March, and at that time engaged Frank E. Richey as her attorney to bring suit for damages. The suit for damages depends upon the time of her expected convalescence.

Since the accident she has been in retirement in modest quarters in this city, most of her time being spent in bed, but last week, owing to a change for the worse, she was transferred to the hospital, and Dr. David M. Giblin was called into consultation. Attorney Richey says the filing of her suit for damages depends upon the time of her expected convalescence.

World's Fair Company Reduces Salaries of All Employees Drawing Over \$1000 Per Month.

[BY THE ASSOCIATED PRESS-P.M.]

ST. LOUIS, July 28.—A letter from the World's Fair Company, St. Louis, was promulgated today, effective August 1, reducing the salaries of all employees and officers of the World's Fair Company from \$1000 to \$750 per month. No salary of \$600 or less will be affected by the retrenchment order.

It was stated today by an official of the exposition that 350 persons would be reduced as the result of the order. The reduction of salaries is part of a general retrenchment plan by which the exposition company hopes to save many thousands of dollars.

Notice of dismissal has also been received by many employees.

MERELY PLATES FOR NEW PLAY.

NEW YORK, July 28.—Samuel Schuberth, the theatrical manager, today received a cablegram from his brother, Lee Schuberth, that the latter was held by the authorities at Aix-la-Chapelle, Germany, for having military plans in his possession. The cablegram stated that Schuberth had called upon United States Consul Brundage for assistance and had explained to him that the photographic plates which were responsible for his arrest were merely for use in a new play which he proposed to produce.

DRAWING ROSEBUD LANDS.

CHAMBERLAIN (S. D.) July 28.—The eagerly-awaited drawing day in the distribution of lands in the Rosebud reservation opened bright and sultry. Shortly before the event the stand was comfortably filled with the officials connected with the drawing. Envelopes containing the names of registered aspirants were placed in the wheel from which the numbers were drawn. Everything was ready for the drawing.

William McCormick, Lancaster county, Neb., was the first name drawn.

WAR NEWS AFTER MIDNIGHT.

LONDON, July 28.—[By Atlantic Cable.] The Daily Mail's Newchwang correspondent in a long dispatch of the battle of Ta Te Kiao, which mainly repeats the details already known, says it was not until the Japanese attacked all along their front that the Russians retreated. The Japanese artillery was immeasurably superior, and their shrapnel frightfully destructive. Russian gunners went down by hundreds, but their guns were fought with magnificent bravery.

The Russian officers, the correspondent adds, speak in the highest terms of the bravery of their men. They say Russia already has lost one campaign owing to the recklessness of the czar's advisers, but that she must have Manchuria and that she is now preparing for another campaign.

LONDON AND VOY PLEHWE. [BY THE ASSOCIATED PRESS-P.M.] LONDON, July 28.—The failure of the reactionary system in Russia, of which the murdered Minister of the Interior was a typical representative, is the leading theme taken up by the editorials in this morning's newspapers, which comment with horror on this latest political crime as a stain on the pages of Russian history. Little surprise is felt at the removal of a man who, although honest and able and well-meaning, was regarded as the evil genius of his country. The editorials generally extend the utmost sympathy to the czar, who is

surrounded with difficulties both at home and abroad. Extended accounts of Von Plehwe's career accompany the descriptions of his assassination. It is alleged that he spent as much as \$500,000 yearly in police measures for his personal protection. This is probably exaggerated, but it is known that the expense of the secret service has been greatly augmented under his regime.

WIDESPREAD CONSPIRACY. A dispatch to the Daily Telegraph from Helsinki, Finland, under date of July 27 says that the Russian police say they have discovered a widespread conspiracy having its center at St. Petersburg, and the alleged object of which was to take the life of the Minister of the Interior. Numerous arrests, the dispatch says, have already been made, and domiciliary searches are taking place nightly.

The Copenhagen correspondent of the Daily Telegraph says it is reported in the Danish capital that a large body of conspirators exists both in Russia and in Finland, determined to exterminate all the leading Russian statesmen and officers held responsible for the present system of government.

THE CONSTANTINOPLE correspondent of the Daily Mail says that the Turkish press has been rigorously forbidden to publish anything concerning the assassination of Von Plehwe and that the Sultan has been greatly affected by the news.

ANDREW D. WHITE ON RUSSIAN BARBARITY.

[BY THE ASSOCIATED PRESS-P.M.]

SYRACUSE (N. Y.) July 28.—Andrew D. White, former ambassador to Germany, in an interview given to the Post Standard, states that he was well acquainted with M. Von Plehwe, the slain Russian Minister, having met him frequently in the course of official business during his stay at St. Petersburg in 1892, 1893 and 1894 while he (White) was Minister of the United States to Russia. Discussing Plehwe, White said:

"At that time, M. Plehwe had not arrived at the position of full Minister of the Interior, but was the first assistant Minister in that department, and in that capacity took up various American matters, especially the dealings of the Russian government with some of the great American insurance companies. The Russian government had made the companies a great deal of trouble, and I was instructed from Washington to discuss the matter. Gen. Bachellor, now judge of the international court in Egypt, very ably representing the companies.

"I think both Gen. Bachellor and myself found M. Plehwe very agreeable, and apparently, as far as his government allowed him, reasonable. I also met him socially at various times and found him agreeable and interesting. I was therefore greatly surprised at learning, when he was promoted to the first place, that his whole character seemed to change.

"His part in the horrible massacre and plunder of the Jews—men, women and children—at Kishineff caused him to be regarded with abhorrence by the whole world. Even more frightful has been his connection with the destruction of the liberties of Finland. In my mind, that is the most wicked thing in the history of the last two centuries.

"There is no time to go into it here, further than to say that it has turned the best, the most civilized, the most educated and most loyal province in the empire into a land in which the opposite of all these characteristics is more highly developed than in any other part of the empire. Other things done by him were also calculated to bring about bitter hatred against him. He attempted to help his cause by a defense of his conduct toward Finland, which was published in an American magazine. But it certainly must have failed to convince any thinking man at all aware of the circumstances.

"During two summers I lived mainly in Finland, coming frequently to St. Petersburg, and the transition in passing from the cultivation and civilization of Russia was the most depressing I have ever known.

"I do not wonder at his assassination, although I deeply lament it. Among other reasons for this regret, it will undoubtedly be made a pretext for new oppression and new cruelties toward the Jewish population and toward the Finlanders. Assassination always defeats its purpose, and this will be, I fear, no exception to the rule.

"I can only account for Plehwe's atrocious reactionary and despotic conduct since he came to the position of Minister on the theory that he found that the clique in control of the government was of the same type as he himself.

RAILROADS NOW INVOLVED.

Freight Handlers Refuse to Handle Meats, Etc.

Many Strikers Desert Ranks and go Back to Work.

Negro Set Upon and Nearly Beaten to Death.

(BY THE ASSOCIATED PRESS.—P.M.)
CHICAGO, July 28.—All railroads entering Chicago have become involved in the butchers' strike. Lawrence J. Curran, president of the Freight Handlers' Union, today ordered all members of the union employed by the various railroads throughout Chicago to refuse to handle any freight whatever for the packing-houses, where the thousands of employees are now on strike.

If the freight handlers live up to the order of their president, it will work a severe handicap on the packers, as the notification to the men states explicitly that no freight delivered by or billed to the packing companies, whether delivered at the freight house by teams or in cars, is to be touched by the members of the union.

What the railroad officials will do has not been decided. A meeting of the railroad managers was held tonight to discuss the situation, but what action if any, was taken was not made public.

President Curran's order to the men follows: "At a meeting with the business agents of the local freight handlers unions today it was decided that all men under the jurisdiction of our organization who handle freight on the Chicago railroads be ordered not to receive or deliver any freight of the packers whether this freight is delivered at the freight houses by teams or in cars."

The order, which was signed by President Curran and all the business agents, was posted in all the railroad freight houses tonight.

EFFORTS FOR CONFERENCE.

At the same time that this step was taken by the freight handlers, present, another effort to bring another conference between the packers and strikers was made. Henry C. Wallace, a writer and lecturer on agricultural topics of Des Moines, Ia., and A. L. Ames, president of the Corn Belt Meat Producers' Association, are the sponsors of the new movement for peace. Wallace and Ames came to Chicago today and immediately went to conference with the strike leaders.

Donnelly and his assistants were told by Wallace of the hardship the strike was imposing on the live-stock raisers and immediately asked if some concessions besides those offered at the last conference between the packers and the strike leaders could not be suggested in order to bring the present conflict to an end. Donnelly, who was made spokesman for the labor leaders, said he would welcome another conference with the employers. He also informed Wallace that the strikers were willing now to accept the time limit in which the men should be reinstated.

At the last conference with the packers Donnelly insisted that the men be reinstated within ten days. The packers refused to agree to this limitation, holding to the original agreement, which allowed forty-five days for reinstatement. Wallace said tonight that he and Ames would call on the packers' representatives tomorrow and endeavor to bring about the desired conference.

BOTH SIDES CLAIM VICTORY.

Tonight both sides to the dispute at the stock yards were claiming a victory. According to the packers, all the plants in Chicago are running at nearly their regular capacity. On the other hand, the labor leaders declare the packing industry in Chicago is demoralized and business nearly at a standstill. That the statements of the labor leaders are not altogether true is evidenced by the fact that the packers are slaughtering thousands of animals every day.

There were several desertions from the ranks of the strikers today, but this loss was partly offset by the quitting of a number of strike-breakers.

While thousands of stock yard workers were going home this evening, Grant Taylor, a negro janitor at Swift's plant, was set upon near the yards by a mob and was beaten nearly to death before the police, with drawn clubs, dispersed the assailants.

CURRAN THINKS TWICE.

(BY THE ASSOCIATED PRESS.—P.M.)
CHICAGO, July 28.—After issuing a general order that would have involved all the Chicago railroads in the stock-yards strike, Lawrence J. Curran, president of the Freight Handlers' Union, tonight reconsidered his action and is now holding his order in abeyance pending a conference tomorrow morning with the leaders of the allied trades unions, whose members are on strike. It is said, however, that if Donnelly of the butchers' union and the strike leaders express a desire to have the order enforced it will be put into effect at once. The executive committee of the freight handlers was in session until late tonight and it is said that the order was made to put the strike order in force if it be deemed necessary.

President Curran is reported to have lived up to the order of the freight handlers to work a severe hardship on the packers as it explicitly directs that union men shall handle no freight for the packing companies, either outgoing or incoming.

RIOT AT KANSAS CITY.

(BY THE ASSOCIATED PRESS.—P.M.)
KANSAS CITY, July 28.—A riot occurred tonight in front of the Fowler packing plant, when a mob of 400 strikers attacked a gang of non-union men who were leaving the plant. Stones were thrown and two of the strike breakers were injured. John Richardson, 22 years old, was severely injured as an unknown negro was struck by a stone and severely injured.

The police rushed into the mob and arrested several of the strikers. The strikers surged around the officers, who had difficulty in getting their prisoners to the station.

Riotous scenes in the Armour-

Powder district were numerous tonight. Hundreds of rocks were thrown and dozens of revolvers were flourished. No shots were fired, but there is a feeling tonight that more serious trouble may be expected tomorrow.

VICTORY FOR PACKERS.

(BY THE ASSOCIATED PRESS.—P.M.)
CHICAGO, July 28.—The packers today won an incidental victory in the stock yards strike, the first emphatic gain of the kind that has been made since the general walk-out was declared in effect. Eight hundred live-stock handlers threw aside their allegiance to the allied trades and this afternoon began to handle shipments indiscriminately both for the packers in the combine and for the independent companies.

Arthur Meador of the Armour company today declared that the answer given by the packers at the conference with the State Board of Arbitration last night reflected in its entirety the position of the packers, and that the statements attributed to the packers that they were willing to go back to the agreement entered into with Donnelly's organization was entirely unfounded.

"Our position," he said, "is that we had an agreement with the butchers' organization, but the packers, who which they have failed to live up to, and under the circumstances, the packers are not prepared to make any further agreements with them."

"We are now and propose to continue managers of our business on this basis. Our planters are rapidly assuming normal conditions."

Following the refusal to enter into agreement with the striking workers at the stock yards, Swift & Co., today tossed a bomb into the camp of the sympathetic strikers belonging to the allied trades by posting the following public notice:

"All help leaving our employ July 25-26 will be paid in full at our Forty-first street market paymaster's window beginning Thursday, July 25, at 8 a.m."

"SWIFT & CO."
The appearance of the notice was greeted with angry exclamations by the crowd that soon gathered to read and discuss the move. The place named for the men to apply for their money was outside the stock yards proper, at Halsted station. It was selected as affording the least possibilities of disorder.

SOAP SUPPLY SHORT.

Shortage in the soap supply, particularly laundry, hotel and the cheaper grades of toilet soap, is one of the possibilities of the strike.

According to the employers, there were 13,479 men at work in the big packing plants here today, and the place of more than 4,000 strikers.

The strike leaders today took under consideration a move to induce the railroads to deliver meat to the packing-houses affected by the strike, even if a general strike of retail drivers should be necessary.

Reports that freight handlers in the employ of the Chicago railroads yesterday were denied today by officials of the company.

On board a trolley car Frederick Matthews, a negro strike breaker, was pursued and attacked by a crowd of strikers. Matthews was taken to the stock yards for home. No arrests were made.

Near City Hall, miles away from the stock yards, Mike Harrity, teamster, was kicked and beaten when a wagon loaded with meat started from Libby, MacNeill & Libby's branch wholesale market in South Water street.

Picketing today was in earnest around the produce center, and the nine Armour branches, the eight Swift branches and the four Morris wholesale markets. It was said an attempt would be made to tie up completely the traffic from the packers' distributing points.

GETTING SKILLED HELP.

It was further said that the packers are getting skilled butchers' help. This, however, is denied by the strikers, who assert that the packers are not getting any union men back. The allied trades are still waiting for the call to go to work.

According to President Skinner of the Union Stock Yards and Transit Company, 600 stock handlers are now at work in the stock yards, and the prospects of the strike today, and returned to work in the yards, caring for the live stock.

The hanging of the flag was the principal work among the strikers and strike sympathizers about the stock yards today. Hereafter the telephone operators, today took up the reins and drove a bus about the yards.

Police rule was maintained with a firm hand in the neighborhood of the stock yards entrances and crowds were not allowed to gather.

President Donnelly of the butchers' organization decided today to open a commissary department, where food would be sold to the strikers. The union will also supply funds for those unable to pay rent.

The teamsters who have gone on strike will it is declared, find their occupations absolutely taken away from them when the strike shall have ended. Hereafter the packers, they say, do no teaming, but will force their retail butchers to come with wagons to take away the meat.

Work resumed at the overturning of an ice-laden car at the Nelson, Morris & Co. plant, about forty negro strike breakers refused to work longer.

STUDENT SEVERELY BEATEN.

An attempt of a number of University of Chicago students to remove an effigy from an electric-light wire today caused a small riot, in which a student was severely beaten by strike sympathizers.

This afternoon 133 men, all members of the union, deserted the strikers and returned to work at Armour plant. Twenty-eight are now on strike. The others are skilled butchers, who were formerly employed in the cattle, hog and sheep departments. Every man was put at work at once.

"Therefore, the strike won right now," declared Superintendent Conway of Armour & Co. "Every packer is going ahead as though there was no strike and the operations are in full swing. The striking union men are deserting and coming back in droves."

Work resumed at the union headquarters this afternoon that trainloads of white and colored strike breakers, gathered in the East, were shipped by the packers to the stock yards. A delegation of switchmen employed at the stock yards waited on President Donnelly and appealed to him to request the freight handlers to stop the strike. Donnelly will decide later what action to take.

A crowd of packing-house men estimated at 300 was reported as arriving here today from Kansas City and Omaha, where they had been on strike. They were said to be union men who were tired of being idle, but who did not want to work in their home towns through fear of strikers.

So much union help has been taken into the stock yards up to date that the packers are having difficulty in putting the men to work.

RIOT AT MORRIS PLANT.

A riot call was received today from Nelson Morris & Co.'s branch at South Chicago. A mob of 400 men, who were striking, were thrown and two of the strike breakers were injured. John Richardson, 22 years old, was severely injured as an unknown negro was struck by a stone and severely injured.

The police rushed into the mob and arrested several of the strikers. The strikers surged around the officers, who had difficulty in getting their prisoners to the station.

George T. Ward, member of a commission firm, Ward's appearance running through the building pursued by a man flourishing a big knife, caused a general exodus. Before the belligerent could accomplish any harm, however, he was overpowered by a policeman. The man proved to be a Russian. He gave the name of Anton Dorezki.

Although representatives of the packing companies declare that no further agreements with the striking employees are desired, and that no negotiations are being held, the rumors are persistent that two of the big companies, Schwarzhild & Sulzberger, and the Cudahy Packing Company, are ready to make terms with the men.

The effects of the strike on the local trade has begun to be felt in Chicago, and from now on it is promised that it will be more pronounced. The picketing hereof has been confined to the packing plants and the stockyards district, deliveries of meat from the branch warehouses in different parts of the city not being interfered with, but now the strikers say these points, as well as the wholesale markets of the big companies, will be picketed and an effort made to tie up all distribution.

City meat inspectors report that an unusually large quantity of food unfit for use is on the market now. They ascribe it to the fact that many of the food products to Chicago to meet the demand caused by the strike, and that the condemned goods are chiefly fish and veal.

SHERIFF IN CHARGE.

(BY THE ASSOCIATED PRESS.—P.M.)
OMAHA (Nebr.) July 28.—Sheriff Power today swore in sixty-two deputies and went to South Omaha, where he took charge of the strike situation, relieving the South Omaha police of all duty.

The first action of Sheriff Power was to cause the arrest of thirty-two men who were said to be in the city to act as special officers. They were all arrested as vagrants, and the authorities say they will be forced to return to Colorado.

A little slaughtering was done at the plants today, but the packers bought very little stock.

The strike managers have retaliated against the packers by filing charges against four packing-house managers and one stockyard manager today, and for their arrest. These warrants have not, however, been issued. The strikers' managers with importing men from other States to act as special policemen.

The management refused to talk to-day, but was stated at the packing-house that a large number of men would reach the city and be put to work tomorrow.

AT KANSAS CITY.

(BY THE ASSOCIATED PRESS.—P.M.)
KANSAS CITY (Mo.) July 28.—Many additional strikers, practically all of them unskilled laborers, applied for their old places at the plants of Swift & Co., Armour & Co. and the Fowler Packing Company today, and were reemployed. Following the action last night of the Central Labor union, refusing to call a strike of the allied trades until an order to do so had been received from the international officers, many strikers were discharged.

With the receipts at the yards the heaviest for over a month, the packers asserted that the position, from a standpoint, was greatly improved.

Local strike leaders appear satisfied with the situation. All the allied trades, it was said, would strike as soon as the order was received, and this was expected at any time.

NO FAMINE AT ROCHESTER.

(BY THE ASSOCIATED PRESS.—P.M.)
ROCHESTER (N. Y.) July 28.—Despite the serious aspect of the Chicago stock-yards strike, there are no prospects of a meat famine in Rochester, and it is not probable that prices will be raised.

There are so many carloads of meat in Rochester just now that the local packers are not able to handle them. Local packers say that even if the western supply of meat is shut off, they can supply the local trade by slaughtering their own cattle.

FIGHTING AT ST. PAUL.

(BY THE ASSOCIATED PRESS.—P.M.)
ST. PAUL, July 28.—Contractors' instructions of President Willis of the butchers' union, the strikers at South St. Paul today again attempted to establish a picket line at the Swift plant. Hereafter the strike, John Seymour, was arrested.

Von Plehwe was largely of Polish blood. He was regarded as in many ways being "the power behind the throne," and was dreaded on account of his control of the third (secret) section of police and also owing to the fact that he controlled the press of Russia through the censors, who, it has been understood, did more, on Plehwe's bidding without question.

In May, 1903, M. Von Plehwe was appointed president of the Imperial Commission appointed to carry out the Emperor's reform decree. What part, if any, M. Von Plehwe actually played in the Kishineff massacres will probably never be known, but enemies have claimed that he had full knowledge of the events leading thereto, through his political friend and agent, Kishineff, known as the most extreme anti-Semite in Russia and proprietor of the Bessarabets, a newspaper of Kishineff.

It should be added that the allegations made against M. Von Plehwe have never been proved to be founded on fact, and in view of the Emperor's confidence it is only just to assume that the charges were unfounded.

The last great public work of Von Plehwe, so far as known, was the drafting of the peasant code, early this year. This is a scheme for peasant reform, ordered by the Emperor in his recent manifesto.

June 13, of this year, it was announced from St. Petersburg that the Council of the Empire had approved M. Von Plehwe's decree for the repeal of the law forbidding Jews to reside within thirty-two miles of the frontier. This measure has been approved by the Emperor.

HEAP SORRY, NO WAMPUM.

Senator Clark Doesn't "Dig" for Iroquois.

Mayor Snyder is Likely to Turn Pink Turtle.

Tribe's Wickup to be in Old Union League Rooms.

A large and enthusiastic reception was tendered Senator Clark of Montana, who is visiting the city, by the Iroquois Club last night.

Every Democrat was there except the Senator.

The programme went on without him, the topic for discussion being "How shall we get the money to pay for our new clubrooms—Well, we wonder!"

Everyone was heard to regret that the Iroquois did not have an opportunity to extend the hearty hand of brotherhood to Senator Clark.

Mayor Snyder, a well-known figure in the banking world, wearing a white vest which expanded him to gigantic proportions and importance. But when he heard how the discussion tended, about hiring the old Union League rooms at \$100 a month, Mr. Snyder began to shrink with alarm until his magnificent waistcoat threatened to engulf him like a dear little pink-tinted mud turtle going under its shell.

He said nervously that he hoped they knew where the money was coming from, he never got into a club, he said, that three or four fellows didn't have to foot the bill.

He demanded to know where they would get the money for his set of clubrooms when they have to stand off the landlords for a dinky hall which they share with some kind of a union, the Eagles, and various other aggregations. Under the distressing circumstances no one dared to explain where.

When someone said that the new clubrooms should not be hired because young men might be led to strong drink therein, the Mayor cast him a glance of undying gratitude and swelled up again, frowning outrageously upon the demon Rum, which was there in the form of a large beer keg.

His Honor began making a speech about combatants, but by means of emotion, but wound up strong for the water wagon and rent day.

Everyone feeling grouchy about what might have been had the Senator come and been touched, the controversy raged fiercely as to whether a sideboard should be opened in the new clubrooms.

Judge Frank said he wouldn't be an Indian any more if they were going to have firewater.

It got very stormy—very stormy.

When Mr. Conkling suggested that the sideboard would pay the rent, the Mayor regretted his rash remarks and sank dejectedly down under his collar. Conkling said that Democracy meant every man should decide for his own guilt.

It was Eddie Morris, the bright angel of peace, who burst forth resplendent and said that he never drank himself and anyhow, he knew a place down the street, very near, where he could get anything he wanted.

It was finally decided to back up and make believe the painful subject had not been mentioned. The club decided to hire the old Union League club rooms, anyhow.

Who's to be touched?

All the light and joy has gone out of Mayor Snyder's life. Shivering with forebodings he sees the writing on the wall, which, freely translated, reads as it read in the days of old, "Your final."

Senator Clark has announced that he will leave town early this morning.

BOSS FAILS TO BULLDOZE BARD.

BRANSCOMB'S PROPANE BLUFF DOESN'T STOP SENATOR.

Member of Nation's Highest Legislative Body Demonstrates that He is Man of Courage—Disreputable Work at Ventura Primary and Disappearance of Gangster.

[BY DIRECT WIRE TO THIS TIMES.]

VENTURA, July 28.—[Exclusive Dispatch.] The notorious Harvey Branscombe did Oxnard politics in Senator Bard's home precinct in Hueneone on Tuesday last, also he did the best he could to precipitate trouble. Incidentally, he found it and he also found that Senator Bard is not built on jellyfish lines. Branscombe got to the polls early that day with as disreputable a gang as ever helped to carry a primary. They were clearly not voters in the main. But Branscombe insisted on voting the outfit.

The election officers saw trouble ahead. Branscombe tried to vote. Otto Gerberding challenged him, and the election officers decided he was not entitled to a vote. The Calabasas man trooped at the mouth in his anger and declared that no one should vote until he did. And he did actually snarl up the polls with vile language and bluster for an hour.

Senator Bard was notified and he sent for the sheriff. Then the Senator, it is said, slipped a pistol into his pocket and went to the polls. He wanted to know of Branscombe what he meant, and in language not used in polite society the latter told the Senator that he would be blanketed, but no one would vote until he did unless he passed over his (Branscombe's) dead body.

The Senator has always been known as a man of iron nerve. There was a steady glitter in his usually mild blue eyes as he pushed past Branscombe and cast his vote. Since the episode Branscombe has dropped out of sight. He has found a man he could not bulldoze.

NO CITY CAUCUSES.

ONLY LOS ANGELES AFFECTED.

There will be no preliminary caucuses held in Los Angeles on the evening of August 2. Rival candidates for the Assembly and Senate, as well as for the county offices, will make their contests at the polls on August 9.

As foretold in The Times Thursday morning, the executive committee of the County Central Committee met yesterday afternoon and voted to dispense with the caucuses in the Los Angeles city precincts. There was not a dissenting vote.

Action taken yesterday does not affect the caucus call for the precincts in the city of Pasadena or August 2, nor the call for precinct caucuses throughout the county outside of the cities of Los Angeles and Pasadena, which will be held August 6.

Senator Bard's supporters expect to nominate a caucus ticket in every precinct in the county outside of Los Angeles, and they are urging upon every elector who desires to see Senator Bard re-elected to make it a point to vote to the caucus and see to it that the delegates selected as the nominees to be voted for at the primaries are Bard men.

Bard delegates will be nominated at the Pasadena caucuses next Wednesday night, and at the county caucuses which will be held Saturday, August 6.

STRONG FOR BARD.

LONG BEACH IN LINE.

Campaign literature, soliciting support for one of Senator Bard's opponents, yesterday made its appearance in Long Beach. About the only effect was a new crop of Bard supporters. Here are a number of endorsements of Senator Bard from business men of Long Beach, given after reading the campaign literature of his opponents:

Charles E. Miller, civil and mining engineer: We should rally around Senator Bard and see to it that he is honored with another term. He has been a faithful worker for the people of California. The Panama Canal must be built, and a better interstate commerce law provided, or the old one improved. These are friends of the Southern Pacific would not be likely to support Frank Flint, who just resigned from the Southern Pacific employ, having been its attorney. The railroad has always stood by him, and he would be ungrateful not to return the favor. We must reelect Senator Bard without fail.

E. J. Fellows, grocer: Senator Bard's work during the last term was entirely satisfactory. He never failed to do his duty. I am heartily in favor of having him returned to the United States Senate. It would be folly to trade off a good and well tried Senator for some one of whose qualities we are totally in the dark. I am not in favor of Frank Flint because he is too closely allied with the Southern Pacific. He could not support the Panama Canal or a betterment of the interstate commerce law without being ungrateful to his never-failing supporter, the Southern Pacific Company. E. L. Covert, real estate dealer: Senator Bard has not failed once in the performance of his duty during the term in the United States Senate. He is a just man in all respects, supporting all bills for the benefit of the people and opposing such as were for the corporation gain and a burden to the public. The Panama Canal must be built, and an improvement made in the interstate commerce law. These will be supported by Senator Bard in a more able manner, I believe, than any other Senator would be by some of his opponents, who, apparently, have interests that would conflict. By means of a return Senator Thomas R. Bard.

K. Almind: Senator Bard has been a careful, discreet and hard-working Senator. He should be re-elected. Senator's influence increases with the number of years he holds office. A good Senator is a rare jewel. We need to it that he is re-elected. Frank Flint, the attorney for the Southern Pacific, should not be elected. He could not repay in any faithful manner if he upheld the change in the interstate commerce law and the building of the Panama Canal, for this would injure the railway which has supported him to, these many years.

Hot Head, Cold Feet.

His Pickwickian efforts to stem the tide that is running strong for S. C. Graham in the Thirty-seventh Senatorial District has resulted for Assemblyman Houser in a machine candidate running in a pro-Bard district. Last week in a quixotic effort to curry favor in both camps Houser went to the Soldiers' Home and there intimated that he was making the race in the interest of "my dear friend, Senator Bard." When the report of his Soldiers' Home campaign reached some of Senator Bard's friends in Los Angeles, a few business men went to Mr. Houser and asked for an explanation. Houser made the explanation by telling them for Flint supporters and he promptly blurted out that he was for the machine, first, last and all the time. When the report of his intimations reached the veterans of the Home they promptly denounced Houser as an ingrate.

Former Judge Richel of Hollywood, himself an old veteran, has agreed to stand for the Assembly nomination in the Seventy-fourth District. He has a clean record and no bad affiliations, and the sentiment in the district appears overwhelmingly in his favor. Richel is a personal friend of Senator Bard, and it is to add the latter's candidacy that he has consented to try for the Assembly nomination.

Alexander Indorsed.

Korbel Hall was well filled last night at a citizens' good-government meeting. Dr. George W. Campbell presided, and musical numbers were rendered by Mr. and Mrs. Baker, the blind singers, and by the Boyle Heights High School Drum Corps. The speakers were Supervisor Alexander, who outlined the stand he had taken during his present term of office, and the needs of the Second Supervisor's District during the coming term. He was followed with addresses by Dr. R. F. McLaren, pastor of the Boyle Heights Presbyterian Church, and P. P. Ferguson, son of the Boyle Heights Methodist Church. The latter speaker introduced a resolution indorsing Supervisor Alexander, which was adopted.

Both Look Good.

James Hanley was not yet been able to decide whether he wants to be the nominee for Street Superintendent on the Democratic ticket or to be a candidate for Supervisor from his old district. A week ago he revealed himself to a number of his Democratic friends as an aspirant for the office of Street Superintendent. Yesterday he took it all back and said he was likely to make the race for Supervisor against Patterson.

MAMMY OF CENTURY PINES FOR A "BOY."

DOES a woman ever become so old that she loses the beautiful attributes of mother-love? It would seem not from the case of the aged woman, Mrs. Carrie Rogers, who lives at 129 South Alameda street, where a negro, said by those who investigated to have reached the age of 112 years, is pining for the sight of her boy, who was sold away from her in times of slavery, and who would now be a man of probably 75 years.

"Old Aunt Carrie" is the familiar but loving name by which this aged woman is known among her neighbors.

AUNT CARRIE ROGERS.

Her more dignified title is Mrs. Carrie Rogers, and her home is at No. 129 South Alameda street, where she is cared for by her granddaughter, Mrs. Carrie Russell.

When "Old Aunt Carrie's" son, Jordan, was 12 years of age her master, a white man, sold him to a white man, and she has since been pining for the sight of her boy, who was sold away from her in times of slavery, and who would now be a man of probably 75 years.

Carrie served the master's family for many years, and she has since been pining for the sight of her boy, who was sold away from her in times of slavery, and who would now be a man of probably 75 years.

The varied fortunes of the master's family took both themselves and their slaves from their large plantation about five miles from Moulton, Alabama, to Texas, and the family finally secured a magnificent tract of land at Webbville, Tex.

There the slave woman raised her master's children, and there she married a white man, and bore five children of her own. After the Civil War, Aunt Carrie found her freedom an almost unuseable commodity.

"I certainly was glad to be a free woman," said the old negro yesterday, when she was asked for an explanation of her story. "Why, I done seen the first flat-bottom boat that came down the river. I thought it was a great chicken coop, and when

erlier sliced the handcuffs onto his wrist. Whereupon the escaped prisoner confessed his identity, and the year's chase for the Kentucky quick-shoot was ended.

Helm, and the prisoner will start back tonight. The prisoner is about 34 years old, has a wife and two children.

Helm or "Tom Payne" is the detective who worked up the Pearl Bryant murder case, one of the most famous cases in the criminal annals of Kentucky. Pearl Bryant was betrayed and subsequently executed by two medical students. After the trial and once before the jury, Helm was one of the men who exposed the false testimony of the two hired witnesses. Helm uncovered the whole plot, exposing these witnesses John Seward and William Trusty, and ran down and sent to the gallows the student murderers. Helm also was the man who attempted to assassinate him one night, after shadowing him down to the edge of the Ohio River. But the vigilant Kentuckian has forgiven him, and covering Seward with his revolver before he could act, drew from him his whole confession.

GARVANZA PEOPLE OBJECT TO REDUCTION WORKS.

Huge Four-story Smelter Rearing Itself on Hillside in Arroyo Seco, a Short Distance Below Unwelcome Lowe Gas Plant—Will be Fought by Residents.

Leafless trees, grassless lawns, shrubs that shrivel and stand dwarfed and lifeless; and a background of barren hills, robbed of their verdure—these are the distressing things which residents of Garvanza and Highland Park are fearing may be in store for their beautiful residence section if a halt is not called on present developments in progress there.

These people are fearing an invasion of a smelter or reduction works, whose huge chimneys will belch forth the deadly sulphurous fumes and biting gases whose breath is death to all vegetation within its reach, and whose pollution of the air makes even humankind wither and pale under its distressing influence.

Garvanza people are thoroughly aroused and Highland Park is almost equally stirred; each community is determined to stop the threatened danger if possible; and several conferences were held yesterday to discuss the best means for the accomplishment of their ends.

Meanwhile, out at the east end of the Santa Fe bridge across the Arroyo Seco, and almost opposite Avenue 61, a huge, cumbersome mass of framework is rearing itself on the hillside where the city fathers have decreed the beginning of the reduction works which the Garvanza people feel certain will be a detriment to their community.

The new enterprise, it is said, is under control of a local company, in

NEW HOME FOR

A new home is soon to be provided for the Brownson House Association's settlement work in the Eighth Ward; a building which will be ample for the needs of the club and the demands made upon the association in its very successful work among the children in need of its uplift.

It had been intended to lay the cornerstone next Monday afternoon, but business arrangements have prevented this, and the date will be announced within a few days.

The plans for the building were drawn by Mr. Sullivan of Magnin's, Sullivan & Walsh, and executed by Mr. Shea, local representative of the firm. Andrew McNally is the contractor.

The plans include a large recreation-room for social purposes, entertainments, musicales and lectures, as well as for the choral and classes which hope to increase their industrial value. Here it is planned to conduct choral clubs and evening classes for foreigners, and to maintain a reading room.

The Brownson House will contain quarters for a resident headworker, bathrooms, a kitchen fully equipped for cooking classes, and arrangements for a general settlement work.

The Brownson House Association began its work in Los Angeles over three years ago, starting in a humble way with the occupation of a rented cottage on Aliso street. The association was organized at the suggestion of Rev. J. J. Clifford, then assistant at St. Vibiana's Cathedral, and now pastor of the Church of St. Thomas the Apostle at Hico field.

Neighborhoodness was the quality predominant in the movement, and it was safeguarded with the mutual respect of the true spirit of friendship. Clubs during the week days, after school hours, were first established, and in them the warpath was being happily proportioned for both boys and girls. Sewing, cardboard sloyd and basket

NEW NORMAL

PROF. JESSE MILLSAUGH, the new president of the State Normal school, which has been in state of eruption, entered the trouble zone yesterday, arriving in the city on a morning train.

He spent some time in looking over the old campus.

Besides the four new teachers he has already put in the school here as a result of the shake-up, he has two more coming; he declines to tell the names.

He didn't know the old president, who had been being dropped; that the senior class had issued a pronouncement laying down the law to the Board of Trustees, etc.

"I don't know anything about the troubles that may have taken place

which the Glassells are interested. A rumor is also current among Garvanza people that the Lowe company, not content with settling up its offensive gas plant in the arroyo below the level of the first stories of the residences, has a large interest in bringing to this same territory the objectionable smelter or reduction works.

The foreman of the buildings on the hillside has stated that the plant will be a four-story concern, and that it will be used for smelter purposes. This came to the ears of those who have had a great curiosity to know what the unsightly building was intended for, and the idea of a sulphur-beiching smelter being set down in their midst raised an alarm that spread like wildfire.

Prominent citizens tried to get down the hillside in haste, and on the day yesterday afternoon Andrew Glassell, Jr., made a statement to a well-known prominent citizen of Garvanza which sheds more light, unwelcome though it may be, on the proposed enterprise.

Mr. Glassell says it is to be a reduction works, and he has attempted to mollify citizens aroused to the situation by stating that it is possible to burn sulphur in a very small extent, and use some sulphur, but that "not more than 200 pounds a day" are produced.

This statement has not had the desired effect, and Mr. Glassell was informed that such a concern would be injurious in every manner possible by citizens of both Garvanza and Highland Park.

Through the efforts of the Highland Park Improvement Association, over seven miles of streets have been graded and planted uniformly with handsome palms and live oak trees. They are all making a fine growth, and eventually will become famous among the attractions of the city. The idea of having all this work rendered useless by the new trees killed off by sulphurous fumes has aroused members of the association, and the association on similar lines at Garvanza, is accomplishing a like work. It will, it is said, stand by the Highland Park association in any action it may deem wise.

The location of the proposed reduction works is outside of the city limits, and the city is not ready to allow below the Lowe gas plant. Just when the citizens who have been daily annoyed by the smoke from these hundred yards are waited up from the Lowe concern have decided to apply to the County Board for a prohibition of the same, which will cover the case in hand, then comes this new problem to be met; and its solution may require some hundred years.

Some citizens more determined than ever to rid the Arroyo Seco of both unwelcome plants.

Settlement work.

BROWNSON HOUSE.

Making were among the occupations, and singing, games and gymnasium work on a limited scale furnished rest and enjoyment to those hundred yards and during the summer fetes of an appropriate nature helped to cement the friendship of the workers and the children.

Brownson House work is under Catholic patronage, as is the Sunday-school held throughout the year; but neither creed nor color are considered in admitting to full membership any person or girl who wishes to take advantage of the club work and whose parents fully favor attendance.

Through the donations of friends and also through the Los Angeles branch of the Needlework Guild of America, Brownson House has been enabled to place clothing where needed, and to facilitate the purchase of apparel where charity would be of no avail.

The cottage quarters in which the work was started were soon outgrown, and the demand for expansion attracted the attention of Bishop Conroy, who heartily indorsed the movement. As a result of his interest and substantial encouragement the new home has become assured.

Work on the building is to be completed, and ready for occupancy by October. It has been decided to postpone the opening of the hall work until that time, and plans are being laid for the development of the settlement work on various lines not touched in past efforts.

Brownson House Association for 1904 are: Mrs. C. L. Whipple, Misses Marie Mullen, Carrie Etemendy, Alice J. Stevens, Mary J. Workman, Dolly Schilling, Grace Schilling, Ruth Kay, Elizabeth Kerckhoff, Katherine Ashhurst, Nell C. Reardon, Margaret Dody. The officers and Executive Committee are: Misses Mary Workman, president; Misses Nora A. Phillips and Mary Whipple, vice-presidents; Miss Elizabeth Kerckhoff, treasurer.

The priest, hearing that the woman had been ill, called on the family to see of what assistance he could be. She talked wildly to him and sprang up, crying that she would kill herself, and ran to the open window. Mrs. Saxon's husband arrived at this point and went to the assistance of the priest.

Chemistry in the Pulpit. It was announced in the Leeds district at the close of last week that on Sunday the Rev. W. Cunliffe, B.A., of Bradford, would preach in Farley parish church on the subject of miracles, and that he would illustrate his sermon by chemical experiments. Miracles are being publicly denied in the squares and on the moors in and around Leeds by the opponents of Christianity, and the practical pulpit demonstration was intended as an answer to these attacks. The preacher maintained that a miracle was merely an alteration of the established order of nature. He analyzed a quantity of common salt, showing it to be composed of sodium (or charcoal) and water. Man, he pointed out, could easily separate the constituents; but the wisest could not put them together again. He also burned a ribbon of magnesium, explaining that in combustion it absorbed oxygen and formed magnesium oxide; but the result was, he said, an inexplicable miracle. Other experiments of a simpler kind were shown.—London Telegraph.

SUMMARY OF THE DAY.

The Finance Committee of the Council yesterday recommended the purchase of a children's playground in the Seventh Ward.

The Park Commission is making an effort to secure fresh water for the lakes.

The oiling of the city streets is proving a success.

The Board of Equalization has broken the record and adjourned.

The difficulties in the Faragher household, alleged to have been rather sensational, have been straightened out, and the suits for Wicente support and guardianship of the young son will likely be dismissed.

CHILDREN OF SEVENTH WARD TO HAVE CITY PARK.

Finance Committee Asks Council to Purchase Site—Demurrer on Earl's Complaint Taken Under Advice by the Court—Fresh Water Wanted for City Park Lakes.

The Finance Committee of the City Council yesterday recommended the purchase of a children's playground for the Seventh Ward.

The proposed site comprises fourteen lots, bounded by Violet street on the south, Atlantic street on the north, and lying between Mateo street and Santa Fe avenue. A 15-foot alley extends along the property on the east and west sides.

The location was called to the attention of the Council by R. A. Collins, who, in response to invitations to submit proposals for a site for a playground in the Seventh Ward, offered this location for a consideration of \$12,000.

Such an improvement has long been desired by the residents of this vicinity, for there is no park or other place of outdoor amusement in the ward.

Mrs. Willoughby Rodman and other members of the Civic Federation have devoted much time to securing a playground for the children of the densely-populated section of the town. The movement was also endorsed by many other semi-public organizations, including the Chamber of Commerce, the Merchants' and Manufacturers' Association and the Municipal League. The only difficulty that has stood in the way of the acquisition, however, has been an inability to find a desirable site that could be purchased for a reasonable consideration.

The Finance Committee considers that the price of the site proposed by Mr. Collins is not unreasonable, and that the location is admirably adapted to the needs of the children of the Seventh Ward.

The lot is 300 feet long and 280 feet wide, and has several trees upon it, which makes it much more desirable than a barren lot. There are also several small houses on the property, but these can be removed without difficulty.

The recommendation of the Finance Committee will go before the Council for final approval or rejection Monday.

EARL'S SUIT.

DEMURRER ARGUED.

The arguments on a demurrer to the complaint of Edward T. Earl, president of the Evening Express, against the city and the Times-Mirror company, to cancel the city printing contract, were concluded before Judge Conroy in the Superior Court yesterday afternoon, and the case taken under advisement.

The demurrer was general, and set forth that the complaint did not state facts sufficient to constitute a cause of action, and that it was ambiguous. It admitted that the Mayor did sign the contract, and admitted that the City Clerk signed it before its approval by the Council.

Counsel for the contract was perfectly valid and a legal, binding instrument. Several Supreme Court decisions were cited where contracts were held to be valid which Mayors had signed before approval by the Council.

Assistant Attorney Herbert J. Goudge represented the Council, and Hon. W. J. Hunsaker appeared for the Times, while W. H. Anderson and Sheldon Borden acted as attorneys for the plaintiff.

Attorney Goudge and Hunsaker maintained that the contract was drawn up in accordance with the requirements of the city charter and was valid, even though not signed by the Mayor but by the City Clerk. It was insisted that the Council had the right to authorize the City Clerk to sign the instrument, and that the order in which it was signed was immaterial.

Mr. Hunsaker pointed out that Earl had no more right to bring such a suit than his Honor, Judge Conroy. Mr. Hunsaker, however, did not urge the point, as counsel had agreed to waive that phase of the question.

The plaintiff based his case on the argument that no ordinance had been passed authorizing such a contract, and that therefore the City Clerk was not a person "authorized" to sign the contract within the meaning of the city charter.

Should it be decided that an ordinance is necessary to make a contract with the city valid, it would mean that contracts with the city aggregating \$500,000 would be illegal. The contract for the digging of the outfall sewer, the contract for the city cement which is to be used in the construction; in fact, every live contract the city has would be worth no more than the paper it is written on. Not since the new charter amendments went into effect has a single contract been adopted by ordinance.

FRESH WATER.

FOR PARK LAKES.

At the meeting of the Park Board yesterday Commissioner Stewart and Superintendent Legrand were appointed a special committee to confer with the Board of Health and the water department in regard to the condition of the lakes in the city parks.

a menace to the health of the people in the immediate vicinity of the parks and it is determined to make an effort to see if some remedy cannot be devised.

The commissioners are anxious to have fresh water added to that of the lakes, but whether this will be done at the present time in view of the scarcity of water cannot be determined until the commissioners have conferred with the Water Commission.

Mrs. Grace Lynch filed charges with the Park Commission against Watchman T. N. Merch of Central Park. Mrs. Lynch says Merch ejected her from the park in a rude and threatening manner.

Commissioners Rice and Stewart and Superintendent Legrand were appointed to investigate.

The Edison Electric Company served notice on the commission that no work will be done on the Eastlake Park after August 1, because the commissioners refused to allow a bill of \$153 presented at the last meeting. The commission will soon take steps toward equalizing the salaries of the men employed in the park department.

OILING STREETS.

PROVES BIG SUCCESS.

The use of oil instead of water for sprinkling the city streets is proving satisfactory in every way.

City Superintendent of Streets E. R. Werdin made a thorough examination of the work that his men are doing in this line on Central avenue.

This thoroughfare has already been oiled from its southern terminus twenty blocks north.

Mr. Werdin says the result of the work is far better than he anticipated. The work on Central avenue will be continued until the street is completely oiled from Slauson avenue to Twelfth street.

Oil sprinklers and four sanders are employed on the work.

After the completion of this street work will begin on San Pedro street, which will be followed by South Park and Maple avenues, and then the sprinkling of the streets in the western portion of the city will be commenced.

EQUALIZATION FINISHED.

The Board of Equalization finished its labors yesterday morning, and adjourned sine die.

The board made a record for itself by passing upon 150 petitions for reduction of assessments (the total number filed) in two half-day sessions.

The rapidly with which the work was done was in a large measure due to the fact that many of the petitions asked for were recommended by the Assessor. Out of the 112 petitions acted upon yesterday but fourteen were denied. Nearly all of the petitions were for small amounts.

ON FOR VACATIONS.

President William M. Bowen of the Council, accompanied by his family, will leave this morning for a two weeks' outing in San Gabriel Canon.

A. E. Egan, of the City Assessor's office will leave his duties at the valuation desk Saturday and visit his old home in Sacramento county. He will also visit Lake Tahoe before his return. He will be accompanied by his wife, and will be gone about two weeks.

AT THE COUNTHOUSE.

DOVE OF PEACE MAY ALIGHT.

SON RECONCILES HIS PARENTS AND ENDS LITIGATION.

Butcher Knife and Revolver Are Stowed Away, and There is to be a New Chapter Begun in the South Flower Street Flat—Woman Divorced from Horse Trader.

"And a little child shall lead them." And that, too, just about explains the situation in the Faragher household at the present time. The young mother and mother have been at odds for awhile, but differences are being compromised, each of the parents finds that it takes two to make a quarrel, and there is promise of an early reconciliation.

Arthur Douglas Faragher, the seven-year-old boy, is the one who is responsible for the reconciliation of the parents—if it takes place.

The wife conceded that there had been a hot-footed from Cleveland several months ago, and began a suit against her husband, Robert J. Faragher, to compel him to support her and her son. She didn't ask for a divorce, but just desired that the law hold her over the husband's head and compel him to maintain her and the boy.

The wife was modest in her demand and named \$27.50 as the sum that she thought she could worry along with.

As a reason why she was not living with her husband, she averred that she had been sent off to Cleveland last March, and that her husband promised to follow after in a day or two with their boy. She said that when he didn't appear she came back just to find out what his little game was. But when the matter came up in court the wife's explanation did not prove to be the whole story, by a long way.

The husband, who is a young fellow in the employ of the Los Angeles Gas and Electric Company, receives \$75 a month. He is a native of the city, and East with money he supplied, but not with his consent. Finally he had given her the money just for the sake of preserving a semblance of peace, the same as he had done on several previous occasions.

Faragher saw that there had been a slight difference before she took her eastern trip. The husband maintained that a "slight difference" didn't do justice to the ability of his wife to "raise old Ned." He said that, although she was not connected by family relations with anyone in the butchering business, she wielded a butcher knife with deadly earnestness, and threatened to take his life. She accused him of words and threats from the knife which, though not deadly, was suggestive. By that time she had worked herself into an exuberant temper, and she rambled through the house looking for a revolver that she knew her husband possessed, and which she was dragging along by the cur. He suffered wounds and bruises and claims to have been laid up for nine months.

Faragher saw that Mrs. Faragher was settling down to steady business and took to his heels. He gave her time, as he was anxious to win her back, and then returned. But Mrs. Faragher's temper hadn't reached zero point and she blazed out again, sufficiently to tell him to "clear out"—and he cleared accordingly. When he once more ventured to return Faragher said that he found that his wife had sold the furniture, and had begun her trip to her parents at Cleveland.

That is all with "slight differences" as a prelude to the eastern trip.

up by his wife as a "low-lived devil." He thought that the marital deal ended. All the more so, too, as his wife told him that she never would have married him had it not been for the suggestion of her mother, as she loved another.

In her application for alimony pending a decision of the suit, for counsel fees and other claims of that sort, Mrs. Faragher lost all along the line. Judge York granted her \$50 for attorney's fees and let it go at that. But, inasmuch as the guardianship of the boy, Arthur Douglas Faragher, had pending in Judge Wilbur's court, the trial of the suit for maintenance was referred to the Probate Court. The facts in the guardianship matter would necessarily have a bearing also upon the other matter.

In seeking to have himself appointed guardian of his boy Faragher did not undertake to set out anything detrimental to the character of the mother, nor got standing by alleging that his son had property interests consisting of a \$2000 policy of insurance upon his father's life.

The father also had a signed contract of a lot in the Figueroa-street division. The father also set forth Douglas Faragher had pending possession of the boy on June 14 and contemplated taking him out of the State to Cleveland; and that she has no money with which she can properly support or educate him.

On the other hand, the mother was in a bad way. She had no money, and she in the first instance was in the suit for support. She charged her husband with habitually using vulgar, profane and obscene language, and alleged that the boy is afraid of his father. On several occasions, Mrs. Faragher said, her husband deserted her for varying periods of time; that she intends to make Los Angeles her home, and could support the boy and herself on the money she has brought by her for maintenance.

Yesterday the whole matter was to have been thrashed out. But the case was called, however, it was continued for six weeks, and the understanding was that the father and mother had come to an amicable understanding for the sake of their boy. And so "all's well that ends well."

HORSE TRADER FLED.

DIDN'T LIKE FARM WORK.

William R. Edmiston divided his time between horse trading and farming, but he didn't like to farm, and so split his time into horse trading and drinking sessions. That suited him, but his wife, Mrs. Nancy Edmiston, had ideas on the subject not at one with those of her husband. Yesterday she was before Judge Allen, telling what she had been made to suffer, and asking for a divorce.

The couple were married eleven years ago and all went well until they moved to California. Gradually Edmiston became more and more dissatisfied with the whiskey life, and one day he borrowed a cart from a neighbor and hitched his horse to it, drove away and didn't return. His wife has never seen him since.

One of the witnesses for the wife had served on the term trial jury in Judge Allen's court, and the court thought surely he would get an explicit statement from him. And he did, though it was given in quite familiar surroundings.

"Say, judge," began this witness from the outlying township, "when I rented my place for a year or so, I saw Edmiston plow some for me. Maybe two or three days, or the like of that, and then just thing I knowed he'd gone on a lambores. For three weeks he was just plumb daffy with liquor."

"An' say, judge, when he cum back to him he was nary sober, but made a streak down to Wilmington, and filled up agin and was brought to him bling drunk. Oh, he was a terror. Judge, an' no mistake about it."

LOGGING WEARIED WIFE.

KULANECK GETS DIVORCE.

Thomas H. Kulaneck has for years worked about lumber mills and, for a time, in the logging camps of the East. In New York he married in 1920, while he was working at a lumber mill situated in the hills amidst most picturesque surroundings. The manager of the mill thought enough of his employee to have a small cottage home erected for him, and the newly-married couple began housekeeping.

But the beautiful surroundings did not appeal to the wife, and the monotony of the routine life was so distasteful that when their child was born she returned to the home of her parents for a long visit. Some months later the baby became sick and then the mother hustled back with it to the cottage in the hills. But as the child grew the mother got sick of her surroundings, and one fine day she left husband and baby to get along as best they could and left.

The husband made search for his runaway wife and after a time heard that she was living at Buffalo. He went to her and tried to persuade her to return, but she refused. Shortly after that Kulaneck left for the West and named \$27.50 as the sum that he thought she could worry along with.

After listening to these details yesterday Judge Allen granted the husband a decree of divorce.

Davies, the young woman who became slightly demented by lack of food, and whose case was continued one week to see if she would recover under treatment at the County Hospital, was before Judge Wilbur yesterday. The woman spoke sensibly, but it became apparent that she has developed delusions since she was in court before. She maintained that she had a cavity in her side just over her heart, and said it was big enough for a man to put his fist in. Then, too, she insisted that her left side is partially paralyzed. She was sent to Patton.

REAL ESTATE. The concern of Edward D. Silent & Co. has incorporated with a capital stock of \$75,000, of which \$25,000 has been subscribed. The directors are: E. D. Silent, Charles Silent, F. T. Thomas, G. H. A. Goodwin and J. F. Sullivan, all of Los Angeles.

FINANCE AND BUILDING. The Mutual Savings and Loan Association of Long Beach has incorporated with a capital stock of \$2,000,000, of which \$100,000 has been subscribed. There are twenty-seven trustees, all of whom are residents of Long Beach.

The phone system in Paris has long been a cause of dissatisfaction to subscribers, and it is claimed that in no large city of Europe is the telephone so badly managed. This is due to different causes, one lying in the inefficient administration of the system, and another in the old types of apparatus which are used. It is stated that if Paris had the modern type of telephone which is used in America, half the trouble would be avoided. The operators are overworked, and there is a great lack of discipline in the central stations. The subscribers are at a disadvantage owing to the monopoly which exists and up to the present their protests have had little effect. The matter has been brought to a head lately owing to some difficulties which occurred between certain subscribers and the administration, resulting in several lawsuits. The subscribers have now formed an association in order to defend their interests, and it is hoped that this action will lead to some reforms.—[Electrical Review.]

WOLE MUCH AND OFTEN.

James Jones, formerly an employe of Pacific Telephone Co., has had to twenty distinct times in six weeks. The arrest was made by Freeman, Capt. Austin and McIntyre, on the specific charge of carrying a dangerous weapon. At Main Oaks avenue a few nights a pocketbook and \$15. after Jones locked Lester in his room. Jones was arrested during his career as a light-ginger. He apprises about every article from a shaving machine. A stolen from a jewelry store in the Casa Grande, silk bed paper cutters of gold, a Stetson hat, a watch and other articles. Jones, a full

stuffed more or less valuable things in his room yesterday. Maxwell, a roommate of the man, was arrested later in the day, charged as no evidence could be obtained against the man, he implicated Leo Stayman in the buying of the clear store of Grimes on June 13. Stayman was arrested on the same date with a charge of burglary. Stayman before Judge Condon took this morning.

Stayman told his employer, who was done while in the lumber company, from loads of goods of which he was in the store is estimated to be worth total between \$200 and \$300.

BUS GROWERS FOR BARD.

Last meeting of the directors of the Madre Citrus Growers' association, the directors unanimously agreed to

Madre Citrus Growers' association in this 25th day of 1904, that he has been honest, faithful and with which the entire State of California has been proud to have R. Bard during his term of that we fully appreciate his services and in the light of what he has done, and wish to thank him for what was saved to us mainly through his courageous and wonderful work. He has retarded in the past been a factor in the protection of the railway interests of this country. It is also evident that it is natural for him to be interested to retard and render in the consumption of that property to be destroyed. We are glad to know that he behooves us all at this time to be power-watcher that it is to be done to a safe and want rather than to be influenced by and may not be influenced by the interests, and he is further glad to know that he is glad to bring the importance of material right to the attention of the whole country and to do so by power to secure the rights of the Senator and Assemblyman and who shall themselves as a vote and work for his re-

Wheldon, a South Fair Oaks resident, admits that a petty swindler assumes the name of Hawkins, and that about every member of the fish contingent in Pasadena bit the same game. The hard-luck tale of the man giving the name of Wheldon was in effect that he is a civil engineer, a stranger stranded in a small town. He first learns the name
